

Bridge Gem (v3.0.22) Release Notes

2025-09-12 v3.0.22

New Features

1. Director and Scorer textboxes converted to dropdown lists
2. Emailing of Results to Players
3. Creation & printing of Movement Cards
4. Updated version of user guide '**Running an Event**' which described how to use the above
5. New user guide '**SOS – How to get help in an Emergency**'
6. New user guide '**Emailing Results**', which described how to email Results to Players
7. New user guide '**Manual Scoring**', which provides hints for Manual Scoring
8. New user guide '**Movement Cards**'

Bug Fixes

1. Fixed bug that occurred when uploading Result after just a Player's Name had been corrected

Notes

1. The Director and Scorer Names textboxes in the Event form have been converted from textboxes to comboboxes with dropdown lists. Names typed into these controls are remembered. Directors and Scorers names can be added or removed from these lists using the **Insert** and **Delete** keys on the keyboard. A fuller description of how to do this is documented in the v3.0.22 version of the User Guide, **Running an Event**.
